

2024 Surest fully insured health plan

Available to employers with 51+ employees

With the Surest fully insured health plan, members can see prices (copays) for health services in advance, then search, compare and decide based on what works best for their health, family and budget. There's no deductible to meet and no coinsurance to calculate. Instead, members have access to the broad, national UnitedHealthcare provider network, where prices are assigned to higher-value options based on quality, efficiency and overall effectiveness of care. And to simplify the process even further, prices for certain services – like diagnostic tests and lab work – are grouped together so members pay one price for a single visit. When members save, employers can save, too, without cost-shifting. Results show the plan works: Employers saved up to 15%¹, and members had 54%² lower out-of-pocket costs when compared to industry benchmarks.
